Math Baseball

While playing math baseball, you need to write down the math problem for each swing and show your math calculations for each. If you get an answer wrong, you need to show the correct calculations in the "correct?" box. Be sure to circle S (single), D (double), T (triple), H (homerun), or O (out) as you play so we can track the data on our class data charts. **TO BEGIN: Select "All of the above" and "Hard." When you receive 3 outs, be sure to record your total number of runs. Keep playing until the end of the class session.**

You must show work for each swing to receive credit.

Swing	**Swing**	**Swing**	**Swing**	**Swing**	**Swing**
S D T H Out	**S D T H Out**	**S D T H Out**	**S D T H Out**	**S D T H Out**	**S D T H Out**
Correct?	**Correct?**	**Correct?**	**Correct?**	**Correct?**	**Correct?**
